

I sincerely hope that the FCC does not intervene in Wisconsin's Do Not Call List. We should not have to pay extra for an unlisted number just because we do not want to receive unsolicited phone calls at home. We have noticed a significant increase in quality of life since WI's law took effect in that we are allowed some peace and quiet while doing business with people who we wish to get in contact with ourselves. If anything, I'd like to see it stronger by closing the few loopholes that exist so we don't get calls from anyone we don't seek on our own.

Thanks for hearing us,
Tim Congdon & family
